ABOUT ME

I am a front-end developer with a bachelor's degree in Computer Engineering. I am passionate about building engaging user interfaces and always eager to learn and implement new technologies. I'm a proactive individual who enjoys tackling challenges and continuously refining my skills in dynamic and fast-paced environments.

LANGUAGES

- Azerbaijani – Native proficiency
- Turkish – Full professional proficiency
- English – Intermediate proficiency

WORK EXPERIENCE

Pasha Bank

06/24 – 09/24

Frontend developer (Internship)

During my 3-month front-end internship at Pasha Bank, I worked in the Business Innovation department, where I contributed to projects utilizing microfrontend architecture. I gained experience in writing unit tests to ensure code quality and collaborated closely with the team to develop and refine innovative solutions. This experience deepened my technical skills and gave me valuable insights into modern front-end practices.

FindIn

11/23 – present

Frontend developer

At FindIn, an innovative e-commerce startup, I have been working on developing and enhancing platform. The site allows users to place orders and receive offers from sellers, providing a unique shopping experience. During this time, I have gained significant experience in e-commerce development, honed my skills in Next.js, and deepened my expertise in React. My role involves building and optimizing features to improve user engagement and streamline the ordering process.
